

The Select List is a pre-set investment line-up that allows plan participants to build prudent diversified portfolios while placing a high emphasis on low cost. This list offers five primary asset classes--large cap, small cap, international, fixed income, and cash equivalents--and various supplemental asset classes, including mid cap and emerging markets, with choices between value- and growth- oriented strategies. This list may be suitable for investors with average to above-average investment knowledge and risk tolerance.
